7.3 Function: Personnel Responsible for Processing or Accepting Dangerous Goods Consignments

Personnel responsible for processing or accepting dangerous goods consignments must be competent to perform tasks aimed at verifying and validating that the dangerous goods being offered for transport comply with the applicable provisions of the regulations and are in a suitable condition for air transport. They may work for freight forwarders, ground handling agents or operators. Personnel would need to have relevant knowledge to competently perform these tasks. The following are tasks that these personnel typically perform and for which training and assessment would therefore be required.
